

MOBILE CAMERA & LIGHT MASTS

SB6- PRO BASIC

The premium model for a strong presence.

We have specially developed the SECURITBOX video tower so that it is compatible with all common brands and manufacturers of surveillance devices.

The vandal-proof design of the Securitbox offers enough space to safely store your electronic devices.

Our Basic model has two doors and an open roof, which not only offers plenty of space inside, but also a clear height at the top. This allows flexible positioning and ensures optimum access to your devices.

Mobile security, redefined
